

Luzerne Optical Introduces A Superior 1.60 Hi-Index Lens

1.60 L. T. T. Lens

Light • Tough • Tintable

A Great Choice for Any and All Eyewear. Why?

- Very Thin and Very Light
- Superior Tintability
- A Very Tough Hi-Impact Lens
- Clear Vision
- Great Choice for Grooved, Drilled, or Faceted Eyewear
- Excellent Tensile Strength
- Abbe Value of 39
- Wide Variety of Lenses to Choose from in This Material
- Available in SV, Aspheric SV, Digital Progressives, Digital SV, Office Lenses and Stock Lenses
- Excellent Alternative to Trivex, Poly, 1.67 and Tribrid Materials

No price increases over regular 1.60. We will automatically upgrade you to 1.60 L. T. T. whenever you order 1.60 Hi-Index except in digital styles where the Digital Lens Company requires us to use their 1.60 lens blanks.

1.60 L. T. T. Lens Availability: Single Vision, Aspheric-SV, Progressives

- All of Luzerne Optical's own brand digital designs such as, FreeFocus and FreeFocus HD, FreeFocus PC, FreeFocus SV, SightStar +, SightStar365, SV SightStar
- All Shamir digital designs that are available in 1.60 such as, Autograph II, Autograph III, Autograph II SV, Autograph III SV, Spectrum +, Spectrum, Spectrum SV and others, ...
